How can I improve my CIBIL score?

To boost your CIBIL score:

1️⃣ **Pay every EMI and credit-card bill on time** – late payments hurt the biggest part of your score (payment history).
2️⃣ **Keep credit-card usage low** – aim to use ≤ 30 % of your total limit; high utilisation signals risk.
3️⃣ **Don’t open too many new accounts quickly** – frequent inquiries lower the score temporarily.
4️⃣ **Check your report once a year** – spot any mistakes (e.g., wrong defaults) and get them corrected at cibil.com (free annual report).
5️⃣ **Maintain older accounts** – length of credit history matters; keep active cards you’ve had for years.

For more details see the “Credit Score – What It Is and How to Improve It” guide (source: CIBIL/TransUnion).

Key points: timely payments, low utilization, regular monitoring, and correcting errors are the core actions to raise your CIBIL/Credit score.
